About the Company

We are turning ideas into beautiful things

Introduction

Water Scape Engineering founded by **Indrakant Chaudhary** in 2020 to deliver world class **water fountain and swimming pools** in India market with **affordable rates**. Skilled engineers, talented artists, and fountain, swimming pool technicians were added exponentially throughout the years in the WATER CARE ENGINEERING family, and we all share a rather twisted perception of water. We don't see, taste or sense water the way everybody else does. We see water as a medium to create emotions. "We are trusted & valuable brand in India for Water Fountain & Swimming Pools." We have a dedicated team for project management to deliver effective solutions in a reasonable time frame at attractive rates. **Water Scape Engineering** team able to cater to all the requirements related to **fountain & swimming pools on pan India basis**.
